

JOSEPH DESTEFANO

Front End Developer

joedestefano.webdev@gmail.com • 732-865-6856 • [Portfolio](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Front-End Developer with 2 years of experience in HTML, CSS, JavaScript, and React, specializing in responsive site layouts and high-performance e-commerce solutions. Takes initiative to enhance site usability through intuitive designs and optimized interfaces. Skilled in state management, RESTful APIs, modern programming tools, and delivering clean, scalable code with a focus on innovation.

CORE COMPETENCIES AND SKILLS

Frontend Development: ReactJs, Redux, HTML5, HTML, CSS3, JavaScript (ES6+), Webpack, Front-End Frameworks, Custom Websites, E-commerce, Responsive Web Design, SEO Optimization Techniques, Design Collaboration, Issue Resolution, WordPress, User Experience, Python, User Interface, code debugging, Code Editing

Backend Development: Node.js, Express, MongoDB, PostgreSQL, MySQL, AWS, RESTful APIs, Database Design, Database Management

Version Control Tools & DevOps: Git, GitHub, GitLab, CI/CD (Jenkins, CircleCI), Cucumber

Testing & Debugging: Unit Testing, Jest, Mocha, Cypress, Postman

Development Tools & Processes: Agile Development, SDLC, Webpack, Babel, Git Flow, Slack, Jira, Trello, Software Engineering, Code Reviews, Plugins, Design Principles, Technical Discussions, Mobile Applications

WEB DEVELOPMENT PROJECTS

E-commerce Store

Aug 2024 - Sep 2024

Designed and developed a fully responsive e-commerce platform using React.js, prioritizing intuitive interface development and seamless navigation. Implemented dynamic product listings, an "add to cart" feature, and advanced search filtering. Conducted integration testing to verify digital content accuracy and ensure mobile-friendly performance, improving overall user engagement.

MoviesFlix-Hub

May 2024 - July 2024

Developed a full-stack movie application using Node.js, Express.js, and React, integrating RESTful APIs for seamless browsing and viewing. Designed a responsive interface optimized for mobile devices. Collaborated with support teams to ensure accurate digital content publishing and smooth project maintenance.

ChimeIn Chat Application *Aug 2024*

Built a real-time chat app with React and Firebase, featuring user authentication, real-time messaging, and image sharing. Focused on mobile optimization and ensured accurate and secure communication through Firebase. Assisted in project life cycle tasks and supported teams in maintaining efficient functionality.

CineGalaxy Movie Application

Sep 2024

Developed a dynamic movie app using Angular, providing a sleek, responsive interface for browsing and managing movie details. Included user profile management and the ability to save favorites. Ensured cross-device usability and

completed the full cycle of development, focusing on accurate content and interface design.

EMPLOYMENT HISTORY

Shift Supervisor

CKA Management, Middletown, NJ, USA Nov 2020 - Present

- Managed a team of 20+ employees, focusing on recruiting, hiring, and training, and implemented strategies that improved team performance and productivity by 15%, fulfilling key responsibilities in team leadership and accountability.
- Gained experience in team collaboration and Employee Assistance Programs (EAP), implementing practices that foster a cohesive and high-performing work environment, supporting essential responsibilities in team dynamics and operational management.
- Developed strong problem-solving skills by addressing operational challenges and implementing solutions to enhance compliance with company standards, meeting critical responsibilities in employee and operational management.

EDUCATION

Full Stack Developer Certification *Career Foundry, Jan 2024 –*

Sep 2024

- Comprehensive Full-Stack Development Skills: Gained expertise in both front-end and back-end technologies, including HTML5, CSS3, JavaScript, React, Node.js, and Express. Developed the ability to handle complex and dynamic web applications, enhancing skills in building responsive and efficient solutions.
- Advanced Problem-Solving and Project Management: Successfully tackled complex projects, enhancing problem-solving, debugging, and agile project management skills. Improved ability to address real-world development challenges and deliver high-quality solutions.
- Enhanced Collaboration and Technical Expertise: Acquired hands-on experience in collaborating with peers, using version control (Git), integrating APIs, and deploying applications.

Bachelor's in Health Sciences

William Patterson University, Wayne, New Jersey, Sep 2017 - May 2020 American Public University, Charles Town, West Virginia, Oct 2020 - Apr 2022

- Developed strong analytical skills through research projects, enhancing my ability to interpret data and create solutions that support software development goals.
- Gained attention to detail through meticulous data collection and documentation, essential for coding, debugging processes, and creating reliable applications.
- Strengthened problem-solving and critical thinking skills, which support addressing complex technical challenges efficiently.
- Acquired experience in managing and interpreting large datasets, relevant for creating robust database integrations and working with APIs.
- Enhanced verbal communication skills by presenting research findings, effectively conveying technical concepts and supporting team collaboration.
