Dynamic and team-oriented Full Stack Web Developer, adept in web design, creative coding, and debugging, bolstered by certification in Full Stack Development. Skilled in technical troubleshooting, cross-functional collaboration, and project implementations. Dedicated to leveraging 6 years of experience in restaurant operations and management to augment performance, drive innovation and achieve 100% customer satisfaction.

Projects

Featured Projects

Movie Application

Role: Developer

Duration: May 6 - July 18

Built a full-stack movie application using Node.js and React, integrating RESTful APIs for seamless data management and interactive, responsive UI components.

Meet App

Role: Developer

Duration: July 17 - July 31

Developed a meeting scheduling app with serverless functions and AWS Lambda, featuring an intuitive UI for efficient scheduling.

Chat App

Role: Developer

Duration: August 15 - August 21

Created a real-time chat application with React and Firebase, incorporating user authentication, image sharing, and real-time messaging.

E-commerce Store

Role: Developer

Duration: August 22 - August 26

Designed and implemented a responsive e-commerce store using React, enhancing user experience with dynamic product listings and performance optimization.

Employment history

Shift Supervisor, CKA Management — **Nov 2020 - Present**

Middletown, NJ, USA

Leadership and Team Collaboration: Managed and trained a team of 20+ employees, focusing on enhancing team cohesion and performance. This experience demonstrates strong leadership and communication skills crucial for leading development teams and collaborating on projects. Problem-Solving and Technical Compliance: Addressed and resolved operational issues, contributing to overall improvements in compliance. This background in troubleshooting and process improvements equips me with the problem-solving skills necessary for debugging and refining web applications.

Effective Communication: Optimized communication between front-line staff and management in a quick-service restaurant, resulting in a 15% improvement in order accuracy and customer satisfaction. Sharpened the ability to relay information efficiently and manage high-pressure interactions, to ensure clear and effective communication in development teams and projects.

Education

Career Foundry — **Jan 2024 - Present**

Full Stack Developer Certification

Key Skills Acquired:

Front-End Technologies: Proficiency in HTML5, CSS3, JavaScript ES6+, React.js (including component-based architecture, state management, and hooks)

Back-End Technologies: Experience with Node.js, Express.js, and MongoDB, including server-side development, RESTful API integration, and database management

Web Development Practices: Building scalable, responsive web applications emphasizing best practices, performance optimization, and cross-browser compatibility.
